Row Labels	Average of Delivery Time
Central	4.2
East	4.25
North	3.625
South	3.333333333
West	3.428571429
Grand Total	3.764705882

d) Business Questions

- Most successful product category (revenue-wise) => Electronics , revenue = 15209.
- Region with highest cancellation rate => North, approx 40%
- Number of orders delivered within 2 days => 11
- How XLOOKUP supported your analysis => Mapped customer names from CustomerMaster to AmazonSales. Enriched the data.
- Recommendations to improve delivery performance => Focus on high delay region like North and central , Improve fast delivery area coverage.

e) Recommendations :

1. Fix north region operation to reduce the cancellation rates to increase revenue.
2. Increase fast delivery capabilities, since only 11 deliveries were within 2 days out of 34 deliveries which is less 33% of total delivery and also reduce the average delivery time in Central and East region.
3. Electronics has outnumbered all categories in revenue shows its potential. To increase the electronics sales in all region, show relevant advertisement to people of those areas.
